

A company in the Friedr. Dick Group

High-performance circular saw systems

- Multiple cut saws
- Single cut saws
- Underfloor saws
- “Flying” saws

High-performance deburring machines

- With driver discs transport
- With chain transport
- Orbital rotating
- Rotating

MMKS - Minimum Quantity Cooling Lubrication systems

- Lubrication and cooling of workpieces
- Network-capable systems
- Nozzle technology
- Lubricants

Special system engineering and component construction

- Saw gearbox
- Clamping technology
- Feeding technology with welding seam detection

High-performance saw tools

- HSS circular saw blades
- HM circular saw blades
- Circular knives
- Saw bands
